## POETRY.

LAUS DEO.

The Ypsilanti Commercial.

PUBLISHED WEEKLY, BY  
C. R. PATTISON.

AN IMPORTANT AMENDMENT.

Several resolutions have been offered in Congress proposing to amend Article I, Section 2, of the Constitution, so that Representatives in Congress, and Electors of President and Vice-President, should be apportioned among the several States in the Union on the basis of legalized voters in each State. Pass this amendment and we shall not be so strenuous in reference to negro suffrage in the rebellious States. It will come. We shall labor for its consummation in our own State, in order to set a good example to those who may hold out upon the platform of injustice and unequal rights, taxation without representation.

At present by the provisions of the Constitution, Representatives in Congress and Electors for President and Vice-President, are apportioned to the several States, adding to the whole number of free persons in each State, three-fifths of all other persons. There being no "three-fifths of other persons" since slavery has passed away, all the population is reckoned, and South Carolina with not half her population legal voters, has the benefit of all in representation, the same as Michigan. There are to-day 4,000,000 of people in the South, counted in the representation, but not entitled to vote. This gratuitous injustice would entitle the South to 97 members of Congress. Limit representation to legal voters and the South would only have 67 Congressmen. All New England has only 33 Congressmen. Thus the late rebellious States lack only two votes out-voting all New England three over. In other words the 30 votes to which the South are not in justice entitled on a white suffrage basis, only lacks three of out-voting all New England. Michigan beside of South Carolina, sinks into insignificance. It is manifest that this astounding inequality cannot be tolerated. Our "white-washing" President is as silent as the grave on the subject. He is evidently willing that the late rebellious States should enjoy in perpetuity this inequality over the men of the North. So it would seem.

**THE STATE PRESS.**  
The Michigan Christian Herald, under the able management of Curtis & Clark, is making commendable progress. It is really a valuable religious paper, well worthy the denomination, under whose discreet patronage it has been published for over 20 years. Every Baptist should certainly take it and as the only exclusively religious paper in the State, all religious people would do well to encourage and patronize it.

The Jackson Daily Citizen comes to us enlarged, evidencing prosperity. The Weekly has assumed a quarto form and will now compare favorably with any of the metropolitan Weeklies. All hail to Jackson and its enterprising Citizen.

The Huron County News is a stirring, wide awake sheet, published at Port Austin, Huron County. Way up North it snuffs the stiff Northern breeze and is "Union," and patriotic every time.

**GOV. N. EDMUNDS.**  
We have received the Annual Message of Gov. Edmunds of Dacotah Territory. It is an earnest, straightforward, business document. One point in it especially interests those designing to make a home in the west. He says:

"I know of no other State or Territory presenting as great inducements and advantages as are now to be found in this Territory, in the immediate vicinity of fine flourishing towns, on a navigable river, contiguous to good and reliable markets for every species of products raised in this country, with thousands upon thousands of acres of as fine, rich, productive and arable lands, as the sun ever shone upon, not yet in market, but surveyed and subject to settlement and entry under the Homestead Law so generously provided by the beneficent Government, by which every settler who desires it may secure a farm of one hundred and sixty acres, every foot of which is equal in productiveness to the best lands to be found in the valleys of the Connecticut, Mohawk, or the Ohio, for the insignificant sum of twelve dollars. It appears to me that you have only to lay these matters before the people of the Eastern States, or those coming from the old world, in such a light as to show all these advantages, to secure such an influx of Immigration as will in one or two seasons, fill the valleys of the Missouri, Big Sioux, Vermillion and James rivers, with an enterprising, intelligent, frugal and industrious population, who will ever after be showering blessings upon your heads for having called their attention in this direction."

The negro gave one in three of his number to the cause of freedom. Did we, with all our valor, do half as well? Let us think of this and be just.

NEW YORK TRIBUNE.

One of the ablest and most reliable papers in the country is the New York Tribune. It often has the manliness on minor questions to differ with its party. But on the great questions at issue, especially on a reconstruction based in equity and justice to all men, it maintains a noble stand. It is the industrial organ of the country, favoring ample protection to all home industry against the pauper labor of the Old World. It is devoted to human progress. It is largely taken by business men irrespective of party, on account of its full market reports, especially by cattle dealers. As we stated last week so we reiterate that firstly in every true man's calculation comes his Local paper, secondly, his State paper, Detroit Tribune, thirdly if he can afford an additional one, as the paper beyond all others The New York Tribune is the paper to take. You can subscribe at Halleck & Hall's News Office.

**YPSILANTIANS.**  
Shall we have a railroad? The most feasible route is from Toledo through Adrian, Tecumseh, Ypsilanti, Holly, and so on to Saginaw. Ypsilanti is almost on an air line. Shall we not have a meeting and agitate the matter. AROUSE, O, YPSILANTIANS. We take the following from the Adrian Expositor:

"The building of more railroads seems to be generally necessary to meet the wants of the business of the country. This city needs other outlets, and these outlets owned by competing companies. A road from Adrian to Ypsilanti, through Tecumseh and Saline, would make the distance to Detroit but little over sixty miles. A look at the map will show that Holly is directly north of Ypsilanti a distance of less than forty miles. If these two pieces of road were built, from Adrian to Holly would be less than seventy miles, and give us all rail to Saginaw, as roads are already in operation from Holly to Saginaw. We would then have an independent line to Detroit, and also direct communication with Saginaw."

**A WORD FOR NEWSPAPERS.**  
The following from the New York Tribune, is worthy of an attentive perusal. We commend it to all sensible persons:

"Nothing is more common than to hear people talk of what they pay newspapers for advertising, &c., as so much given in charity. Newspapers, by enhancing the value of property in their neighborhood, and giving the localities in which they are published a reputation abroad, benefit all such, particularly if they are merchants or real estate owners, thrice the amount yearly of the meagre sum paid for their support. Besides, every public spirited citizen has a laudable pride of having a paper of which he is not ashamed, even though he should pick it up in New York or Washington."

A good looking, thriving sheet helps to sell property, gives character to the locality, and in all respects is a desirable public convenience. If, from any cause, the matter in the local or editorial columns should not be quite up to your standard, do not cast it aside and pronounce it of no account until you are satisfied that there has been no more labor bestowed upon it than is paid for. If you want a good readable sheet it must be supported. And it must not be supported in a spirit of charity, either, but because you feel a necessity to support it. The local press is the "power that moves the people."

A ROADSIDE DIALOGUE.

"And so squire, you don't take a county paper?"  
"No Major, I get the city papers on much better terms; I get a couple of them."

"But Squire, the county papers, often prove a great convenience to us."  
"Why, I don't know any convenience they are to me."  
"The farm you sold last fall was advertised in one of them, and thereby you obtained a customer did you not?"  
"Very true, but I paid five dollars for it."  
"And you made more than \$300 by it. Now if your neighbors had not maintained the press and kept it up and ready for use, you would have been without the means to advertise your property and your brother's death with a long obituary notice, and the destruction of neighbor Sigg's house by fire."

"O, very true, but—"  
"And when your cousin Splash was up for the Legislature, you appeared much gratified at his defence which cost him nothing."  
"Yes, yes, but these things are new to the reader. They cause the people to take the papers."

"No, Squire, if all were like you.—Now, I tell you, the day will come when somebody will write a long eulogy on your life and character, and the printer will put it in type with a heavy black rule over it, and with all your riches, this will be done for you as a pauper."  
"Your wealth, liberality, and all such things will be spoken of, but the printer's boy, as he spells the words in arranging the type of these sayings, will remark of you—'Poor, mean devil, he is even spunging his obituary!' Good morning Squire."

CURRENT EVENTS.

There is a good deal of speculation in Europe in reference to Gen. Schofield's visit to Paris. Our impression is that it is of a purely private nature.—Henry Winter Davis of Maryland is dead. He was an honest politician, possessed of great ability, and a distinguished radical. He was a leader in the great conflict between freedom and slavery. The friends of a reconstruction based in justice have met with an irreparable loss.—The astonishing amount of 12,000,000 pounds of wool have been shipped the present season at Detroit.—The figures for 1865 show great prosperity for our State commercial centre.—The Fenian Congress has recently met in New York 800 strong and endorsed O'Mahoney, who had been impeached and deposed by the Senate.—Congressman Wilson of Iowa, with some other friends, called on the President to see if harmony between the President and Congress cannot be maintained. Mr. Wilson plainly told the President that a large majority in Congress regarded his efforts at reconstruction a failure. Also that any attempt on his part to influence Congress by government patronage would meet with serious opposition and divide his friends. The President would not give any assurances either way.—The Treasury Department warns the public against the advertisements of claim agents, who promise to soldiers, other than veterans, any extra bounty. Soldiers are warned not to part with their discharge papers.—Massachusetts spent during the war almost \$28,000,000, exclusive of local bounties and other similar expenses.—The New Hampshire Republican Convention have renominated Gov. Smith.

WM. LOYD GARRISON, who some months ago announced that he meant to discontinue the publication of *The Liberator* at the close of the present year, last week printed in the journal the proclamation of Ratification, from types set by his own hand. In an editorial article, he thus enthusiastically refers to the great fact of the abolition and perpetual prohibition of American Slavery:

"Rejoice, and give praise and glory to God, we who have so long and so untiringly participated in all the trials and vicissitudes of the mighty collier! Having sown in tears, now reap in joy! Hail, the cause of Peace, of Liberty, of Righteousness, thus mightily strengthened and signally glorified! Hail, the Present, with the transcendent claims, its new duties, its imperative obligation, its sublime opportunities! Hail the Future, with the pregnant hopes, its glorious promises, its illimitable powers of expansion and development! Hail, ye ransomed millions, no more to be chained, scourged, mutilated, bought and sold in the market, robbed of all rights, hunted as partridges upon the mountains in your flight to obtain deliverance from the house of bondage, branded and scorned, as a connecting link between the human race and brute creation! Hail, all nation, tribes, kindreds and peoples, 'made of one blood,' interested in a common redemption, heirs of the same immortal destiny! Hail, angels in glory, and spirits of the just made perfect, and tune your harps anew singing, 'Great and marvelous are thy works, Lord God Almighty; and glory thy name for thou only art holy; for all nations shall come before thee; for thy judgments are made manifest.'"

**WHAT THE REBELS DEMAND.**—In a letter in favor of negro suffrage, Henry Winter Davis says: Congress is asked to guarantee as Republican such despotisms as these: In North Carolina, 431,000 citizens ostracize 331,000; in Virginia, 619,000 citizens ostracize 533,000; in Alabama, 566,000 citizens ostracize 497,000; in Georgia, 591,000 citizens ostracize 465,000; in Louisiana, 357,000 citizens ostracize 350,000; in Mississippi, 353,000 citizens ostracize 436,000; in South Carolina, 291,000 citizens ostracize 411,000 citizens.

The New York News thinks that the Southern Congressmen elect, excluded from their seats, had better assemble at Richmond and speak the voice of the South—in other words, the News wants the Confederate Congress to re-assemble.

## Improvements.

Mr. G. Morman is breaking ground oppo-  
site our office for four Stores. We would  
suggest to Mr. Morman that the very thing  
he should do is to erect a first class Hotel  
on these grounds. The lower rooms could  
be occupied for Stores. This side of the  
River needs a first class Hotel and his lots  
are the place for it. Our public spirited cit-  
izens should take hold of the matter before  
it is too late. "A word to the wise is suf-  
ficient."

**TO PRESERVE HEALTH.**

First, when any uncomfortable feeling is noticed; begin at once, trace the cause of it and avoid that cause ever after. Second, use means at once to remove the symptom; and among these, the best, those which are most universally available and applicable, are rest, warmth, abstinence, a clean person, and a pure air. When animals are ill, they follow nature's instinct, and lie down to rest. Many a valuable life has been lost by the unwise efforts of the patient to "keep up," when the most fitting place, was a warm bed and a quiet apartment.

Some persons attempt to "harden their constitution," by exposing themselves to the causes which induced their suffering, as if they could, by so doing, get accustomed to the exposure, and ever thereafter endure with impunity. A good constitution, like a good garment, lasts the longer by its being taken care of. If a finger has been burned by putting it in the fire, and is cured ever so well, it will be burned again as often as it is put in the fire; such a result is inevitable, there is no such thing as hardening any one's self against causes of diseases. What gives a man cold to-day, will give him a cold to-morrow, and the next day and the next. What lies in the stomach like a heavy weight to-day, will do the same to-morrow; not in a less degree, but a greater; and as we get older, or get more under the influence of diseases; lesser causes have greater effects; so that the older we get, the greater need is there for increased efforts to favor ourselves, to avoid hardships, and exposures, and be more prompt in rectifying our "symptoms," by rest, warmth and abstinence.—Hall's Journal of Health.

**KEEPING APPLES.**  
At the last New York State Fair De los Randall had on exhibition Russet apples grown a year ago. These apples were plump, fresh, and of good flavor, quite as good as the same kind of apples are ordinarily on the approach of Spring.—The apples were put up in refuse boxes obtained at the groceries, in the following manner:—A layer of dry sawdust was sprinkled on the bottom of the box and then a layer of apples placed in it so that they did not touch each other. Upon these were placed a layer of sawdust, and so on till the box was filled. The boxes, after being packed in this way, were placed on the wall in the cellar, up from the ground, where they kept perfectly, retaining their freshness and flavor, until brought out and exhibited at the fair. He says he has kept apples in this way some months later than the time named. From experiments made with dry sand, packing the apples in the same way, he finds that sawdust is much superior to the sand, the latter inclining to being too heavy a material, and pressing the apples too much, causes them to decay more rapidly than with the sawdust. The above experiment, perhaps, may be suggested to those desiring to preserve apples late into the season of next year. It will be needless to remark, perhaps, that no apples will keep late, by any process of packing, that have been bruised or injured in packing.

**BUCKWHEAT CAKES.**

A young lady of culture, refinement and unusual powers of observation and campaign became a widow. Reduced from affluence to poverty, with a large family of children dependent on her manual labor for daily food, she made a variety of experiments to ascertain what articles could be purchased for the best money, and would at the same time "go the farthest," by keeping her children longest from crying for something to eat. She soon discovered that when they ate buckwheat cakes and molasses, they were quiet for a longer time than after eating any other kind of food.

A distinguished judge of the United States court observed that when he took buckwheat cakes for breakfast, he could sit on the bench the whole day without being uncomfortably hungry if the cakes were omitted, he felt obliged to take a lunch about noon. Buckwheat cakes are a universal favorite at the winter breakfast table, and scientific investigation and analysis has shown that they abound in the heat-forming principles, hence nature takes away our appetites for them in Summer.—Hall's Journal of Health.

**TOP-DRESSING STRAWBERRIES.**

A correspondent of the Mass. Ploughman, says:—"Supposing the land to be in good vegetable condition, deeply dug, I know no dressing which will so delight the strawberry as a heavy coat of dark forest mold. They are the children of the wilderness, force them as we will, and their little fibrous roots never forget their longings for the dark unctuous odor of muldering forest leaves." True every word of it, as we know. There are other means and soils that will grow strawberries—but forest mould, or mulch, or chip manure is the most grateful, the most reliable. Such is our experience. Then, clean culture and thorough mulching (with white mulch, the finer the better), just before the fruiting season—and there need be no fear about success in raising, not only plentifully of this luscious fruit, but of good quality. A little clay at the bottom, for the longest roots to draw from, adds sweetness to the berry—any berry.—Es

**TO CURE A FELON.**—As soon as the part begins to swell, get the tincture of lobelia, and wrap the part affected with cloth, saturate it thoroughly with the tincture, and the felon will soon die—poisoned instead of hung, as all felons ought to be. An old physician informs us that he has known this to cure in scores of cases, and it never fails if applied in season.

**HEAR WHAT THE MEDICAL PRESS SAYS.**

"Some physicians require to be told the nature of your disease—the ENGLISH BOTANIC PHYSICIAN does not. His perfect knowledge of the human system enables him to describe the diseases without any information from the patient, to explain the original cause, and to guarantee its cure. And what is more valuable still, he will honestly tell you the truth about your case, and will not try to satisfy your mind, and save you expense, time, trouble, and disappointment. It will be the means of saving you much trouble, and it will save your health, and it is better than all, it will save your life from being shortened by wrong treatment."

His examinations are made without any information from the patient; therefore he thoroughly understands their condition and can remedy them without any of those examinations which never could have been performed so many astonishing cures. It should be remembered that this is the ENGLISH BOTANIC PHYSICIAN, and not the one who has been advertised in the newspapers. If you have tried others and got no relief, if you wish to enjoy good health and long life, if you are wise, you will consult DR. RAPHAEL, the ENGLISH BOTANIC PHYSICIAN. All his communications and interviews are strictly private and confidential.—Medical Journal.

**FACTS ARE STUBBORN THINGS!**

Hear what the Philadelphia correspondent says in the Commonwealth, Wilmington, Delaware, 23d of April, 1859:

"An English gentleman, formerly connected with the British Army, and who styles himself the 'English Botanic Physician,' has of late gained an extensive reputation for his skill in curing many of the most distressing diseases. Some of his patients I have conversed with, and they pronounce his remedies and mode of treatment as very superior. Some have been cured of their diseases by his means. The medicine he uses is distilled by himself from various herbs possessing rare curative properties."

"While acting in the army he devoted his leisure moments to a thorough study of the effects produced by poisons, and the nature of the human system. In the complaints to which females are subjected he has no equal, as a large number here have testified that they owe not only their present good health, but their lives, to the skill of this English Botanic Physician."

**MORE GOOD NEWS!**  
**FROM A HIGHER AND RELIABLE AUTHORITY.**

The Botanic Remedies of Doctor Raphael, the English Botanic Physician, never failed yet to make a perfect, radical, and permanent cure of ALL

**PRIVATE, SECRET, AND VENEREAL DISEASES.**

Without the use of Mercury, without hindrance from food and without any other means, he cures all venereal diseases, such as syphilis, chancre, gonorrhea, and any other venereal disease. No deadly poisons, such as arsenic, nuxvomica, opium, or any other poisons. No mercury nor any deadly mineral—nothing but pure vegetable Botanic Remedies. In the cure of these diseases, the English Botanic Physician never fails to cure, and to remove all mercury and other impurities from the system when all other Remedies fail.—Medical Journal.
